

PLOUGHS TRACTOR

PLN-4-40

MOUNTED
For conventional plowing

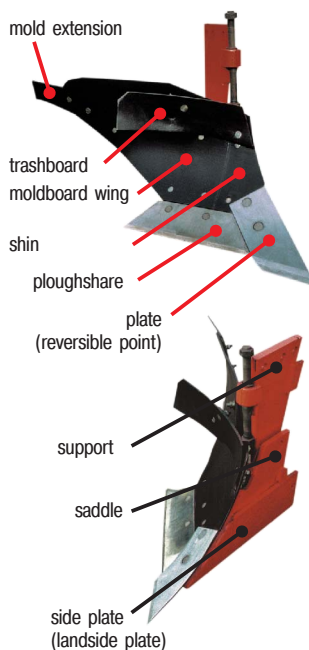

PLN-5-35P

MOUNTED
For conventional plowing

	PLN-4-40	PLN-5-35P
Number of bases	4	5
Type of base	semidigger	
Operating width of base, cm	40	35
Base protection	Shear bolt	No
Plough operating width, m	1.6	1.75
Operating speed of travel, km/h	7-9	
Tilling depth, cm	27	
Possible capacity, ha/h	1.12-1.44	1.225-1.575
Plough dimensions, mm:		
length	4320	4220
width	1950	2080
height	1390	1550/1370
Weight, kg	800	940/925
Types of cultivated soils	Designed for tilling of soils for grain and industrial crops, without stones, with unit draft up to 0.09MPa	
Tractor drawbar category to which the plough can be mounted	2	2 and 3
Manufacturer	Minsk Gear Factory	

PLP-01.000 base

PPO.9.30/45-300 base

PPN.30/45-300 base
